## **Amendment to 2025-2029 Consolidated Plan, PY2019-PY2025 Annual Action Plans and Citizen Participation Plan**

### **Introduction**

The City of Gastonia's 2025-2029 Consolidated Plan establishes the community development, housing, homelessness, and neighborhood investment priorities for the five-year planning period and outlines the funding strategy for the Community Development Block Grant (CDBG) and HOME Investment Partnerships Program (HOME). The Annual Action Plan (AAP) serves as the yearly implementation document for the Consolidated Plan and identifies the activities and funding allocations the City intends to undertake during each program year.

The City of Gastonia's Citizen Participation Plan (CPP) describes the processes the City uses to encourage public involvement in the development, amendment, and implementation of its Consolidated Plan and Annual Action Plans. The CPP also establishes the criteria used to determine whether a proposed change constitutes a Minor Amendment or a Substantial Amendment requiring public notice and comment.

### **Citizen Participation Plan Amendment**

To improve administrative efficiency and provide greater flexibility in implementing HUD-funded programs, the City proposes to revise the amendment thresholds contained within the Citizen Participation Plan. Specifically, the City has transitioned from identifying individual projects within the Annual Action Plan to utilizing broader funding categories, or "project buckets," that encompass multiple eligible activities supporting a common program objective. This restructuring does not alter the priorities, goals, eligible activities, or intended beneficiaries identified in the Consolidated Plan. Rather, it provides flexibility to adjust funding among related activities within an approved funding category while maintaining consistency with HUD regulations and the objectives established through the citizen participation process.

As a result of this restructuring, the City is proposing revisions to the definitions of Minor Amendments and Substantial Amendments to ensure that amendment requirements are evaluated at the funding category level rather than the individual activity level. These revisions
