

Two Rivers Utilities
Approved List of Certified Backflow Testers

Things to know:

- If the backflow assembly fails the test, the customer has 10 days to have the device repaired or replaced.
- **Only licensed plumbers can install or repair approved backflow prevention assemblies.**
- Installation of new backflow devices or replacement of backflow devices must meet current building specifications and must be an approved assembly.
- Testing requirements are as follows:

Backflow Service	Testing Requirement
Commercial	Annually
Residential Irrigation	Every 3 Years
Residential Domestic	Annually

- Each customer shall maintain a complete, written record of every repair and test of each backflow prevention assembly for a period of no less than three (3) years.
- Please note that prices and services do vary.
- For all interested parties who wish to become an approved backflow tester please visit: <https://gastonianc.seamlessdocs.com/f/BackflowTesterApplicationFOG> or email tylera@tworiversutilities.com.
